

GTI, THE ULTIMATE INDUSTRIAL FLOOR
FOR HEAVY TRAFFIC AREAS

Gerflor[®]
theflooringgroup

FOR ALL INDUSTRIES

MANUFACTURING

"This Plug & Play flooring solution is perfect for our industrial production area."

M. PRAGER, Purchasing Manager

Printing

ELECTRONICS

"The dovetail connection is very discreet and gives the impression of a jointless continuous floor."

M. CAROLLO, Technical Support Manager

Automotive

Pharmaceuticals

Mechanical

Microelectronics

Cosmetics

AEROSPACE

"We were able to install the flooring in just one day, much sooner than the three days planned at the start of the project. Once the installation was complete, the area could be used immediately without any drying time."

M. BONNAL, Production and Building Maintenance Manager

Aerospace

» GTI KEY ADVANTAGES

P. 04-13

GTI KEY ADVANTAGES
» HIGH RESISTANCE

CERTIFIED
INDUSTRIAL PERFORMANCE

» Dynamic Resistance
(up to 70 kg/cm² i.e. 700T/m²)

Double glassfibre grid for exceptional dimensional stability

Connection strength

» Resistance to chemicals

Extreme resistance to harsh chemicals

» Static Resistance
(up to 120 kg/cm² i.e. 1200T/m²)

Static resistance

Doesn't break when metal pieces impact on the floor

GTI KEY ADVANTAGES » FAST INSTALLATION

» No production shutdown

Quick connection
No glue
Clean installation
Almost no subfloor preparation required

» Quick installation

» Install directly onto old and «wet» floors

» Easy repair: Should damage occur, you can change your tile in a few seconds

Damaged tile out / New tile in

GTI KEY ADVANTAGES
» ZONING & AESTHETICS

GTI KEY ADVANTAGES
» COMFORT & SAFETY FOR YOUR EMPLOYEES

» Mix colours

» Logos

» Easy to clean

» Easy to cut for a perfect fit

» Comfortable for walking & standing

» Sound insulation

» Anti-slip performance

» One-piece effect!
Once installed, the connections are barely visible **4**

GTI KEY ADVANTAGES
» ESD CONTROL

» With GTI EL5 unique properties, you can fight against all Electrostatic Discharges (ESD)

- Meets all international standards (incl. IEC 61340-5-1 & ANSI/ESD S 20.20)
- Low electrostatic resistance
- Low static electrical propensity
- Electrostatic properties are guaranteed for life!

GTI CLEANTECH

GTI EL5 CLEANTECH

GTI EL5 CLEANTECH is a multi-layered ESD vinyl tile, 6 mm thick, reinforced with 2 glass fibre grids. GTI EL5 CLEANTECH is available in square format with welded joints for clean environments and watertight systems requirements.

GTI EL5 CLEANTECH wearlayer is 2 mm vinyl homogeneous manufactured with continuous high pressure process, abrasion group P. It offers an outstanding resistance to traffic.

This floorcovering is treated with the latest improvements in polyurethane surface treatment obtained by UV laser cross-linking. It offers easy maintenance and resistance against staining of chemical products used in industry ; and decontamination protocols.

This treatment has excellent maintenance characteristics; it requires no wax for life!

The carbon encapsulated granules throughout its full thickness and the conductive backing and conductive surface treatment ensure optimal and consistent static-conductive properties throughout its full life expectancy:

- $5 \times 10^4 < R_g < 10^6$ according to EN 1081
- $R_{gp} < 10^9$ according to IEC 61340-4-1
- $R_{gp} < 10^9$ according to ANSI/ESD S 20.20

- < 100 V according to IEC 61340-4-5
 - < 100 V according to ANSI/ESD STM 97.2
- The product is non-emissive of volatile organic compounds with $< 10 \mu\text{g}/\text{m}^3$ (TVOC after 28 days ISO 16000-6).

GTI MAX CLEANTECH

GTI MAX CLEANTECH is a multi-layered vinyl tile with polyurethane treatment, 6 mm thick with heat-welded joints, abrasion group T. It is manufactured by GERFLOR using a continuous high pressure process.

The GTI MAX wearlayer is reinforced by specific oblong fillers that offers an outstanding resistance to traffic.

GTI MAX is reinforced with 2 glass fibre grids on either side of an intermediate pressed homogeneous layer.

GTI's backing is a 4 mm thick black pressed homogeneous sheet, its surface is a colored and reinforced homogeneous sheet 2 mm thick.

It is made of 100% controlled recycled materials. It is 100% recyclable and made with up to 80% recycled content.

GTI CONNECT

GTI EL5 CONNECT

GTI EL5 CONNECT is a multi-layered ESD vinyl tile, 6 mm thick, reinforced with 2 glass fibre grids. GTI EL5 CONNECT tiles can be installed using interlocking system with dove tails. GTI EL5 CONNECT wearlayer is 2 mm vinyl homogeneous manufactured with continuous high pressure process, abrasion group P. It offers an outstanding resistance to traffic. This floorcovering is treated with the latest improvements in polyurethane surface treatment obtained by UV laser cross-linking. It offers easy maintenance and resistance against staining of chemical products used in industry ; and decontamination protocols. This treatment has excellent maintenance characteristics; it requires no wax for life!

The carbon encapsulated granules throughout its full thickness and the conductive backing and conductive surface treatment ensure optimal and consistent static-conductive properties throughout its full life expectancy:

- $5 \times 10^4 < R_g < 10^6$ according to EN 1081
- $R_{gp} < 10^9$ according to IEC 61340-4-1
- $R_{gp} < 10^9$ according to ANSI/ESD S 20.20

- < 100 V according to IEC 61340-4-5
 - < 100 V according to ANSI/ESD STM 97.2
- The product is non-emissive of volatile organic compounds with $< 10 \mu\text{g}/\text{m}^3$ (TVOC after 28 days ISO 16000-6).

GTI MAX CONNECT

GTI MAX CONNECT is a multi-layered interlocking vinyl tile with polyurethane treatment, 6 mm thick with a dovetail joint, abrasion group T. It is manufactured by GERFLOR using a continuous and exclusive high pressure process.

The GTI MAX CONNECT wearlayer is reinforced by specific oblong fillers that offers an outstanding resistance to traffic.

GTI MAX CONNECT is reinforced with 2 glass fibre grids on either side of an intermediate pressed homogeneous layer.

GTI's backing is a 4 mm thick black pressed homogeneous sheet, its surface is a colored and reinforced homogeneous sheet 2 mm thick.

It is made of 100% controlled recycled materials.

It is 100% recyclable and made with up to 80% recycled content.
