

DESCRIPTION

Description	<p>Removable and non- migrating double side tape on acrylic adhesive without solvent basis for environmental care. It ensures an optimum fixation of Gerflor Transit Tex and Sporisol products. It can be used as well in the private as in the commune parts (corridors, stairs) of a building. It has been especially formulated to avoid migration on asbestos supports, in order to remove it without deteriorating the surface during the floorcovering renovation. It is therefore perfectly adapted to renovation of asbestos support under the French regulation « sous-section 4 ».</p>	
Composition		<p>Support : polyester grid Adhesive : Acrylic Protection paper : siliconed paper</p>
Width	mm	100 +/-1
Packaging		1 coil of 50 lm
Article code		058U0001

STORAGE CONDITIONS

Service temperature	°C	From 15 to 26°C
Storage temperature	°C	From 15 to 30°C
Conservation		12 months in its original packaging
