

MIPOLAM BIOCONTROL PURE is a compact homogeneous floor in 2m wide, with excellent abrasion resistance. Therefore, it has a strong resistance to heavy loads. It is suitable for **ISO1** certified clean rooms according to ISO 14644-1.

MIPOLAM BIOCONTROL PURE has an exclusive Gerflor surface treatment, which according to ISO 2812-1 and VDI 2083 Part 17 allows **excellent resistance to chemicals**, such as H₂O₂, found in the pharmaceutical industry or controlled environments, facilitating cleaning and decontamination.

According to ISO 14644-8, it **provides excellent outgassing performance**, such as VOC/SVOC, Ammonia, inorganic acids and organic compounds (Amines, Organophosphates, Siloxanes and Phthalates).

According to ISO 846, it **does not promote the growth of fungi and bacteria**.

Hygiene and ease of maintenance of the internal and external corners will be ensured by the use of a semi-rigid bi-material triangular profile under the skirting (such as the **Clean Corner System profile IN and OUT**, patented and manufactured by Gerflor).

It is 100% phthalate-free and 100% recyclable.

They are free of formaldehyde, heavy metals and CMR 1 & 2 or vPvB (very persistent and very bio accumulative) or PBT (persistent, bio accumulative and toxic). Therefore it complies with **REACH**.

It complies with the current standard ISO 10581, has a Type I binder content and is perfectly suitable for use in high traffic areas, it has a fire resistance class **Bfl-s1**.

As part of our sustainable development policy, this product is manufactured in a factory that is certified ISO 9001 (quality) and ISO 14 001 (environment).
