

FLORWORKS®

THE CREATIVE FLOOR COVERING

Kenbrock

LUXURY STYLE FLOORING

SMARTER, SAFER, SIMPLER

RESPECTING THE PLANET

Kenbrock Floorworks products are manufactured in ISO 9001 and ISO 14001 certified facilities, minimising energy consumption and greenhouse emissions. They are:

- fully recyclable
- manufactured using a minimum 25% pre and post consumer recycled content, minimising manufacturing waste
- no harmful fillers and plasticisers
- low VOC and DOP free
- a low maintenance product using less energy, detergents and water.

Enjoy the visual appeal of the world's most beautiful timbers, slates and stones in the knowledge that not a single forest has been cut down nor a single quarry dug.

PHTHALATE FREE

The use of 'phthalate free' plastics has long been the safety standard set for the manufacture of baby bottles and toddler toys.

You can now be assured – for the first time in Australia – that the Floorworks phthalate free floor range your children are playing on, has been manufactured applying the same principles and concerns for their safety.

Hexamoll® Dinch has been developed by internationally renowned company BASF for safe use in toys for children under 3 years of age, packaging for food and medical products. Kenbrock Floorworks is the first range to incorporate this new phthalate free plasticiser into its manufacture.

Not only does this advanced, phthalate free plasticiser make this vinyl floor the safest available for your children, but its exclusive use in this manufacturing process also maximises its flexibility and durability, prolonging its life and beauty.

Floorworks is sourced from the only LVP manufacturing plant licensed by BASF to use Hexamoll® Dinch, making it the most advanced safety and performance based vinyl floor range available in Australia.

ALOX PLUS ABRASION RESISTANCE

Extensive and innovative Australian research into advanced flooring protection for our unique Australian conditions has delivered Alox Plus. This advanced Australian made floor treatment has been developed to maximise the life and beauty of your floor by creating a superior barrier to enhance abrasion resistance.

HEALTH

Smoother flooring surfaces have long been known to be of benefit to those with respiratory conditions as they leave nowhere for mites and allergens to hide.

COMFORT

Floorworks resilient construction design not only dampens noise but is easier on legs and feet.

VERSATILITY

The Floorworks range is designed for premium performance in both light to heavy traffic, from light domestic to heavy commercial, wet or dry, indoor areas.

HOME DECOR

RUSTIC, CHIC & VALUE

The Home Decor Collection is the culmination of decades of commercial flooring experience applied to create a durable, low maintenance range for residential floors.

You can be confident that flooring proven in shopping centres and other high traffic areas will exceed expectations in your home.

Featuring a unique hand scraped look and timber patterns that have been selected from iconic timbers and textures to complement your decor.

CRAFTMASTER

VISUAL, TACTILE & ELEGANT

The Craftmaster Collection draws inspiration from the diverse and stunning timbers of Australia – from the iconic features of Marri to the crisp beauty of Gum.

This is a range designed to appeal to tactile senses. It is the culmination of years of technological advances in flooring, delivering hand scraped finishes which echo the unique touch and feel of our native timbers.
