Gerflor, where champions play

For more than a century, Gerflor has provided sports flooring solutions that enable millions of people, from children to professionals, to play and share moments. With its 4 brands, Gerflor Sport now hosts 50 worldwide sports events every year.

Sharing more than sport!

With our modular PowerGame+ tiles, we offer everyone the opportunity to share such memorable sport and recreational experiences.

Our premium surfaces are not only fun, great-looking and safe to play on, but they can also be easily installed in all facilities. You can be sure you're providing the ideal playing outdoor surface for every practice and ambitions, from children to champions.

Hardwood flooring More than 100 years of experience

Founded in 1872, Connor Sports® is the market leader in portable and permanent hardwood sports flooring systems.

Connor Sports® professional engineers lead the industry in new product design and development, setting the standard for innovative solutions in sports surfacing.

Indoor flooring The best performing products on the market

Since 1947, Taraflex has been one pioneer in developing synthetic floors and is today the world leading brand for indoor sports floors.

Its complete range offers the perfect solution to all users and applications, with the highest standards, in terms of performance, comfort and environment.

Linoleum flooring Historic leader in linoleum sport flooring

DLW Linoleum has been manufacturing high class sport linoleum for over 100 years and is proud to deliver uncompromising product quality.

Adapted to both specific and multi-function use, linoleum high performance floors are a great option to address various applications, from kindergartens to multipurpose halls, with acknowledged sustainable features.

Designed for multi-sports

Sport Court surfaces are designed for a wide variety of sports. All game courts can be easily configured to accommodate basketball, futsal, handball, tennis and more, without compromising on playability or safety. A number of temporary or permanent applications are possible, from multi-sport school facilities to multi-use game areas to all kinds of sporting events.

Long-lasting aesthetics

Design a court that makes an impression. With a selection of 10 fade-resistant tile colours, you have more ways to customise the look of your playing surfaces to fit your requirements, whether you want a fun colourful court, or to customise it with your company's or school's colours.

Choose your colours

Customise your court by easily adding logos

Optimal playability and safety

PowerGame+ tiles provide exceptional protection against abrasion, head injuries and joint strain. Extensive third-party testing ensures that athletes of any age remain safe while playing and competing on Sport Court surfaces.

Accomodate many sports with unmatched playability and safety.

PowerGame+ enhances game experience

- highly versatile multi-sport surface
- same dribbling response as a hardwood flooring
- remarkably stable surface

Superior impact protection

A head impact from just 10 cm above a concrete surface can cause a concussion. Sport Court tiles are significantly more forgiving, with PowerGame+ reducing the likelihood of a serious head injury from a fall of 50 cm

Critical Fall Height is a test used in conjunction with the European Standards EN 1177-2018, used for evaluating playground surfaces, such as sand, wood chips, resilient rubber and asphalt.

PowerGame+ provides a unique balance between safety, comfort and durability

- High tile stability optimises ball rebound and game performance
- Improved water drainage enables faster drying and playability after rain
- Low skin abrasion protects players when falling without compromising on traction

Time and money saving

Quick and cost-effective refurbishments

Old asphalt courts turned new and beautiful again in just a day

Make the most of your existing facilities. Sport Court's patented, interlocking tiles easily overlay outdated concrete, asphalt and acrylic surfaces. Now, you can repurpose underutilised courts and free up space for more sports and recreational programming.

Sport Court tiles come in a wide range of vibrant colours, allowing you to design eye-catching surfaces that enhance your recreation areas. What's more, Sport Court surfaces are guaranteed to keep their good looks for years to come with minimal maintenance.

Before

After

Easy installation and maintenance

The simple and strong interlocking system enables the installation of a 1,000 sqm court in 4h

With a packaging of 40 tiles, in ranges of 8 pre-assembled tiles, the installation is easy and fast. The installation of finishing solutions and the painting of game lines will perfect the court transformation. Disassembly is as easy and quick as assembly.

PowerGame+ has high durability with no yearly or costly refinishing. No sanding is required as for synthetic grass... All the dirt will be drained out of the tiles thanks to the rain! Our local technical team will be your partner at every step to provide a responsive support.

$$\text{A court of } 1000 \text{ sqm} = 4 \text{ hours} + 2 \text{ hours}$$
