

**DESCRIPTION**

Description		MDF Skirting with digital printed foil matching the Gerflor LVT ranges. They are designed to match your floor. Please note that they are not completely coordinated with the color of your floor, so they are not perfectly identical. Be careful, because of the process variability slight coloration variations with the LVT ranges can appear.
Installation		To be installed with clips (5948) or mastic adhesive – do not use silicone adhesive please refer to the installation guide
