3002 Mushroom

SPORTS flooring

Taraflex Evolution

P1 Shock absorption (25% - 35%)

Taraflex Evolution is a sports floor known for its high **shock absorption**, with a **P1 category rating of 25% to 35%**. It is constructed with CXP-HD foam for optimal performance and safety and D-max construction for high durability and outstanding dimensional stability. Taraflex is made of **62% biocontent, mineral and recycled content** and is **100% recyclable**.

5742 Wood Oak

5763 Maple Sun

6830 Black

Isolsport

Isolsport is a double-sided, non-woven glass fiber vinyl **isolating membrane** designed for sports flooring applications. Isolsport features a backing design made up of 3-branch star foam pads. This design allows for loose laying on difficult subfloors, such as those with humidity issues or coated surfaces. It is ideal for fast-track projects, heritage projects where removal of the existing floor is not possible, and temporary coverings where floors need to be returned to their original state.

0002 Black & White

CARPET tiles

Perspectives

Perspectives Carpet Tiles are designed for commercial use and are known for their durability and performance in high-traffic areas. They come in a standard tile size of **500mm x 500mm** and have a tufted **weight of 650g/m²**. The tiles are made from **100% dyed nylon solution** and feature a loop pile construction, which provides excellent wear resistance.
