Taralay[®] Premium

Perfecting Performance since 1987

Gerflor[®]

Premium in performance: Satisfying customers since 1987

Since 1987, Premium has been celebrated for its exceptional performance and durability. This trusted range is evolving with a focus on sustainability and biophilic design, seamlessly integrating natural aesthetics to promote well-being.

Premium delivers an eco-friendly solution without compromising quality. Its enduring beauty, biophilic-inspired visuals, and innovative sustainability have made it a preferred choice for decades, setting the benchmark for quality and environmentally conscious design. Featuring an impressive 40-mil wear layer and high resistance to heavy loads—such as operating room beds—it ensures unmatched performance with no binders or fillers.

Premium contains **20% crop residues from responsible sources**. We recycle discarded soy waste from the animal feed industry. The result: **less fossil based material and less carbon**.

Premium is a **low-carbon flooring solution**, making it an excellent choice for decarbonizing your projects.
