Heilsberger apartments,
Berlin

Contemporary - Mars 1976 Movement
1992
Jean Nouvel
Hôtel Les Thermes, **Dax**

DLW, the genuine Linoleum brand
part of Gerflor group since 2018

Key Benefits of Linoleum

Durability

- Inlaid product construction
Long lasting appearance
- Hardwearing
Adapted to high pedestrian and mechanical traffic
- Micro scratch resistance
No problem with tearings and scratches

Health

- Third part certified antiviral and antibacterial activity
Hygienic solution
- Very low emissions
TVOC < 10 microgram/m³ after 28 days
Best indoor air quality
- Neocare™ surface treatment (dirt and stain barrier)
Easy to clean

Comfort

- Resilient and soft surface
Child friendly
- Up to 19dB sound insulation
Acoustic comfort
- Suitable for underfloor heating
Thermal comfort

Design

- Selection of designs and colors
Freedom of choice
- Matt effect
Contemporary finish
- Mix and match possibilities
Creativity and differentiation

DLW Linoleum Creative by Nature

98%

natural

83%

Rapidly renewable

To fight climate emergency and natural resources depletion, every choice counts. DLW Linoleum is a 98% natural, low carbon and circular flooring solution.

we care / we act

New raw material from coffee

Gerflor's **we care / we act** is now even more relevant. This is because the proportion of rapidly renewable raw materials in the successful DLW Linoleum flooring has been increased from **76% to 83%**.

This is due to the use of ground coffee husks, which are a waste product from a large roasting plant in the immediate vicinity. The use of alternative raw materials offers an effective opportunity to reduce Gerflor's ecological footprint and thus tap into new sources for resource-saving production. In addition, the recycling volume is being sustainably increased.

83% fast renewable raw materials, 4% coffee chaff

Coffee cherries

Coffee beans

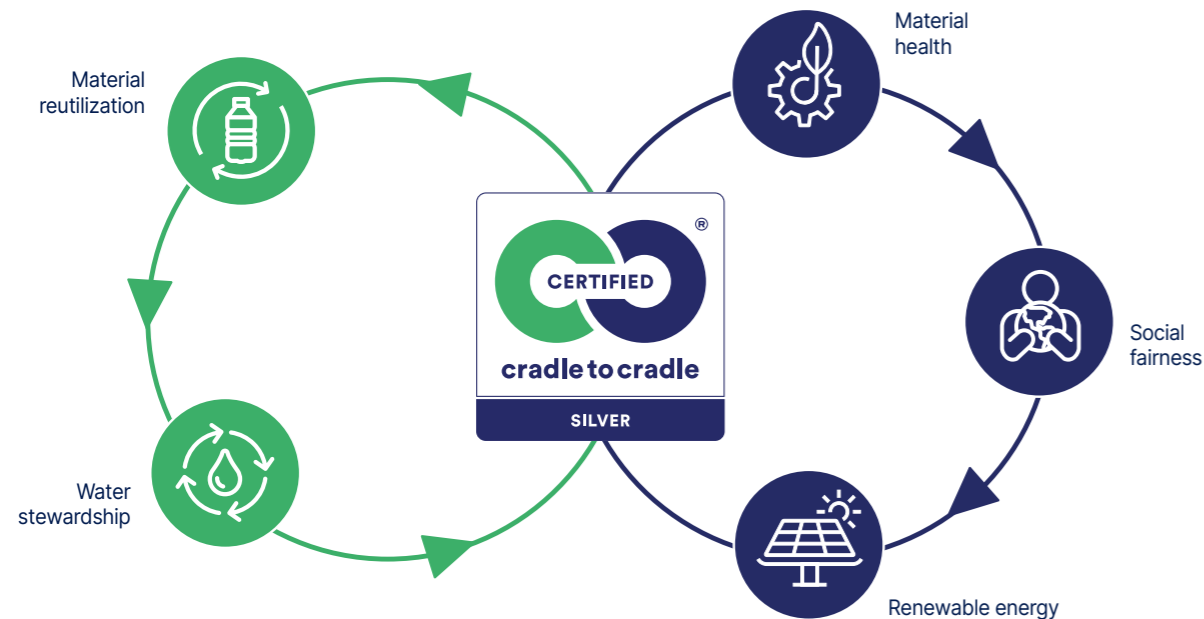

Waste product
Coffee chaff (silver skin)

Sustainable by Nature

Cradle to Cradle Certified™ SILVER⁽¹⁾

Developed using circular economy principles

Cradle Certified™ is a registered trademark of the Cradle to Cradle Products Innovation Institute.

(1) Marmorette, Colorette, Uni Walton, Linodur, Marmorette Acoustic 15dB, Lino Art. / Cradle Certified™ is a registered trademark of the Cradle to Cradle Products Innovation Institute.

Circular economy

DLW Linoleum products are developed according to a Life cycle analysis (LCA) methodology:

- To assess the existing product impact on the environment through all stages of its life cycle.
- To develop new products specifically designed to reduce their environmental impact.

Carbon neutral*

Our CO₂ emissions are neutral during the first stages of the product life cycle, from the growing of raw materials to the end of the production process.

All the details can be found in our Environmental Product Declaration, which has been third party certified (UL).

Up to **40%** Recycled content

* From Cradle to Gate: includes raw materials and manufacturing process (A1-A3 stages of EPD)

The DLW factory in Delmenhorst Installation of 20,000 photovoltaic modules on our factory premises for CO₂-neutral linoleum production.

100 % Recyclable

All Gerflor floorings are 100% recyclable and eligible to Gerflor **Second Life collection and recycling program**. Free collection of installation waste is available in 13 countries.

Eco Labels

Quality

Indoor air quality

Life cycle analysis

Protective by Nature

EXCLUSIVE

Solvent-free surface protection, developed exclusively for linoleum. Extremely hard-wearing due to triple laser UV cross-linking technology.

Healthy living

Air Quality

- Very low emissions: TVOC after 28 days <10 microgram/m³

Natural Design

Mat effect

Hygiene

DLW Linoleum floorings contribute to lower the microbe load (bacteria, virus, ...) and to minimise the risk of a contamination chain.

- Excellent resistance against disinfection chemicals
- Antiviral and antibacterial activity

AntiBacterial Surfaces

Tests conducted by a third part lab (Isega) according to ISO 22196 / JIS Z 2801 standard, prove that DLW Linoleum floorings with Neocare™ surface treatment have antibacterial activity against E.coli - S.aureus - MRSA: our surfaces **inhibit growth of bacteria by 99,99% after 24h**

AntiViral Surfaces

Tests conducted by a third part lab (Virhealth) according to ISO 21702 standard, prove that DLW Linoleum floorings with Neocare™ have antiviral activity against Human Coronaviruses: our surfaces **reduce the number of virus by 98.65% after 5h.**

Easy to clean

- Dirt and stain barrier
- Cost effective maintenance
- Easy cleaning with a mop or any modern cleaning equipment

Detailed cleaning protocol available on www.gerfor.com

Standard Linoleum

Neocare™

Marker

Lodized alcohol

Eosin

Betadine

2H

24H

2H

24H

Durable

Micro scratch resistant

No sealing and waxing
Higher scratch resistance

Easy to repair

Local spray buffing with single-disk machine (Red disk)

Waxing

NEOCARE™ is a high performing surface treatment protecting against dirt, stains and scratches and does not require any sealing & waxing throughout the life of the product. Waxing remains an option.

Compact Linoleum

NEOCARE™

Colorette is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a speckled design and presents a matt finish, is composed of 98% natural materials (linseed oil, wood flour, resin, minerals, coffee chaff and jute fabric) among of which 83% are rapidly renewable.

Marmorette is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2400g/sqm in 2.0mm, 2900g/sqm in 2.5mm and 3800g/sqm in 3.2mm. It features a marbled design and presents a matt finish, is composed of 98% natural materials (linseed oil, wood flour, resin, minerals, coffee chaff and jute fabric) among of which 83% are rapidly renewable.

Uni Walton is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a uni design and presents a matt finish, is composed of 98% natural materials (linseed oil, wood flour, resin, minerals, coffee chaff and jute fabric) among of which 83% are rapidly renewable.

Lino Art is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 2900g/sqm in 2.5mm. It features a modern urban & terrazzo design (moon) and presents a matt finish, is composed of 98% natural materials (linseed oil, wood flour, resin, minerals, coffee chaff and jute fabric) among of which 83% are rapidly renewable.

Colorette, Marmorette, Uni Walton, Lino Art

The floorings are produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring. This treatment avoids performing any polishing throughout the lifetime of the product. It can however be polished following usual recommendations and according to the customer's wishes.

The products ensure perfect indoor air quality (TVOC at 28 days (EN 16516) < 10 microgram/m³) and are classified A + (the best class) in the context of health labeling. It is Floorscore®, M1 and Blue Angel certified.

The floorings are 100% recyclable, are composed of up to 40% recycled content, 100% controlled, are REACH compliant and rated Cfl-s1 for fire resistance.

Designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications, the floorings are Cradle to Cradle certified™ Silver. They are Environmental Performance Declaration (EPD) certified by an external laboratory indicating carbon neutrality during the first stages of their life cycle ("from cradle to gate").

The Camouflage (Marmorette) or Uni (Colorette, Uni Walton, Lino Art) welding rod makes the connections between the strips invisible.

They are antistatic, antibacterial according to ISO 22196 / JIS Z 2801 and antiviral according to ISO 21702.

Acoustic Linoleum NEOCARE™

Marmorette Acoustic Plus is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm. It features a marbled design and presents a matt finish, is composed of natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

Colorette Acoustic Plus is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm. It features a speckled design and presents a matt finish, is composed of natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

Uni walton Acoustic Plus is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm. It features a uni design and presents a matt finish, is composed of natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

Lino Art Acoustic Plus is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3500g/sqm in 4.0mm. It features a modern urban & terrazzo (moon) design and presents a matt finish, is composed of natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric), rapidly renewable and features a 1.5mm recycled foam underlayer, ensuring up to 19dB impact sound reduction.

Marmorette Acoustic is a calendered linoleum acoustic floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas. Its weight is 3900g/sqm in 4.0mm. It features a marbled design and presents a matt finish, is composed of natural materials (linseed oil, wood flour, resins, cork, minerals coffee chaff and jute fabric), rapidly renewable and features a 2mm cork underlayer, ensuring up to 15dB impact sound reduction.

Acoustic Linoleum

The floorings are produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring. Linodur Technic Linoleum

High mechanical traffic resistance

Linodur is a calendered linoleum compact floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high pedestrian and mechanical traffic areas.

Its weight is 4700g/sqm in 4.0mm.

It features a discreet grain design and is composed of 98% natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric) among of which 83% are rapidly renewable.

The flooring is produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring.

This treatment avoids performing any polishing throughout the lifetime of the product. It can however be polished following usual recommendations and according to the customer's wishes.

The Camouflage welding rod makes the connections between the strips invisible.

It is antistatic, antibacterial according to ISO 22196 / JIS Z 2801.

The flooring is 100% recyclable, is composed of up to 40% recycled content, 100% controlled, is REACH compliant and rated CfI-s1 for fire resistance.

It is designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications.

The Camouflage welding rod makes the connections between the strips invisible.

It is antistatic, antibacterial according to ISO 22196 / JIS Z 2801.

Marmorette LCH

Dissipative Linoleum for ESD areas

Marmorette LCH is a calendered linoleum compact dissipative floorcovering in sheet, 2m wide, providing excellent resistance to everyday wear and tear in high traffic areas.

Its vertical resistance is $10^6 < R < 10^8 \Omega$.

Its weight is 3000g/sqm in 2.5mm.

It features a marbled design and presents a matt finish, is composed of 98% natural materials (linseed oil, wood flour, resins, minerals coffee chaff and jute fabric) among of which 76% are rapidly renewable.

The flooring is produced with Neocare™ solvent-free surface treatment, an exclusive photo-cured acrylate based lacquer surface treatment obtained by triple laser UV cross linking. Neocare™ offers excellent scratch resistance as well as resistance to chemicals found in aggressive environments such as bleach, hydro alcoholic solutions, Betadine and Eosin as well as markers making maintenance easier and increasing the life of the flooring.

This treatment avoids performing any polishing throughout the lifetime of the product. It can however be polished following usual recommendations and according to the customer's wishes. The flooring is 100% recyclable, is composed of up to 40% recycled content, 100% controlled, is REACH compliant and rated CfI-s1 for fire resistance.

It is designed and manufactured in a sustainable way in a plant awarded with ISO 9001 (quality), ISO 14001 (environment) and ISO 50001 (energy) certifications.

The Camouflage welding rod makes the connections between the strips invisible.

It is antistatic, antibacterial according to ISO 22196 / JIS Z 2801.

- The cleaning generally depends on local requirements. This document purpose is to serve as a basis and to be adapted to your needs.
- The aim of cleaning is to remove dirt. This can be efficiently done with a mechanical action, without detergents: using an appropriate microfiber or a machine. The use of detergents remain helpful in targeted way, for example to tackle grease or stubborn dirt. Neutral detergents pH <9, Alkaline detergents pH ≥9.
- In the areas where disinfection is essential (operating theatres, hospital rooms, etc.) alternate between neutral detergent and an appropriate disinfecting detergent. Comply with the detergent manufacturer instructions.
- For the complete maintenance instruction check Gerflor website.

Installation & maintenance guidelines available on

Gerflor DLW flooring products are to be installed in full accordance with Gerflor DLW installation instructions and recognized trade standards.

An effective, regular cleaning and maintenance program is vital for retaining a high appearance level. Gerflor DLW flooring products should only be used as floorcoverings.

Note: Gerflor DLW reserve the right to amend this specification without giving prior notice. For the latest versions of the technical specifications, check our website: www.gerflor.com

DLW Linoleum, Creative by Nature

At Gerflor, we believe that architecture has the power to improve people's lives. Nature is our greatest source of inspiration. With the DLW Linoleum offer, we can provide architects with a collection of 159 colors, these are natural designs, that can enhance the sustainability and the creativity of their projects.

Made in Germany since 1882 and Cradle to Cradle certified™ Silver, the DLW Linoleum products are made of 98% natural materials including linseed oil, wood flour, limestone, coffee chaff and minerals, jute and resin.

It's simply our way of connecting people closer to nature.
